

### The Approach

The Short Duration portfolio seeks to generate current income by investing in a diversified set of low duration mutual funds with exposures to various currencies, term structures, issuers, collateralization structures and economic sectors. The portfolio is also diversified globally among both developed and emerging market countries.

### The Features

The investment objective of the portfolio is capital preservation with a secondary goal of current income. The portfolio has a flexible mandate, with no constraints on credit quality, duration, geographic region or issuers.

### Credit Quality
